

Bachelor's Degree in Computer Engineering

- **3 years**
- **180 ECTS**
- **Bachelor's Degree**
- **Online**
- **Language: English**

THE BACHELOR

The **Computer Engineering degree** aims to train professionals able to take part into analysis, design, implementation and system management activities in the areas of computer science and automation. It also gives a solid scientific preparation providing the tools and scientific methodologies required to approach engineering problems in a rigorous way

YOUR CLASSROOM IS THE WHOLE WORLD

Thanks to UNINETTUNO's psycho-pedagogical model, our students have 24/7 access to the online learning platform wherever they are. They join virtual classes coordinated by teacher-tutors, with the opportunity to interact with fellow students from around the world.

CAREER OPPORTUNITIES

- Systems engineer
- Project manager
- Manufacturing engineer
- Program manager
- Product manager
- Quality engineer/analyst

STUDY PLAN

Online Courses:

- Foundations of Mathematics and Quantitative Methods
- Physics and Materials Science
- Electrical and Electronic Engineering
- Programming and Software Development
- Algorithms and Data Structures
- Information Systems and Databases
- Engineering Economics

The bachelor's degree is designed for students pursuing a degree in Computer Engineering or related engineering disciplines. The curriculum targets individuals seeking strong foundations in mathematics, physics, electronics, and software systems.
