

UNIVERSITÀ TELEMATICA
INTERNAZIONALE UNINETTUNO

Master in Sustainable Architecture and Design

in collaboration with

school of
sustainability
foundation ETS

- **12 months**
- **60 ECTS**
- **First-Level Master**
- **Blended: online + 4 months of project work on the SOS campus in Milan at the Mario Cucinella Architects Studio**
- **English language**

THE MASTER

The First-Level Master in in **Sustainable Architecture and Design** with SOS - School of Sustainability trains young professionals in architecture and sustainable construction, combining theory and practice.

The program provides technical and design skills, a people-centered approach, innovative tools, and networking opportunities, with online lectures and hands-on projects at the Milan campus.

YOUR CLASSROOM IS THE WHOLE WORLD

Thanks to UNINETTUNO's psycho-pedagogical model, our students have 24/7 access to the online learning platform wherever they are. They join virtual classes coordinated by teacher-tutors, with the opportunity to interact with fellow students from around the world.

UNINETTUNO is the leading Italian online university for quality, according to the report by **ANVUR** - the National Agency for the Evaluation of the University and Research System

CAREER OPPORTUNITIES

- Architect or designer specialized in sustainable construction
- Sustainability and environmental certification consultant (e.g., LEED, BREEAM)
- Sustainable urban designer and urban planner
- Project manager for green projects and urban regeneration
- Expert in eco-friendly building materials and technologies

STUDY PLAN

Online Courses:

- Fundamentals of Sustainability
- Design for the Circular Economy
- Digital and Parametric Design
- Environmental Design
- Healthy Materials

On campus period in Milan:

The second phase of the academic year takes place at the Milan campus of SOS – School of Sustainability and Mario Cucinella Architects and is dedicated to our Project Track activities.

SOS students work on real, high-impact projects in close collaboration with SOS partner companies and institutions, experiencing the entire lifecycle of a given project.
