## Bachelor's Degree in Psychosocial Disciplines

### An Internationally Recognized Degree

The Bachelor's Degree in **Psychosocial Disciplines** integrates scientific knowledge from psychological research and cognitive neuroscience with insights from the humanities and educational sciences, while providing essential technical and professional skills for entering the workforce.

The program allows students to explore fundamental topics such as intrapsychic structures and processes, the dynamics of human relationships, and the psychophysiological mechanisms underlying behavior.

Students develop both theoretical understanding and practical competencies, preparing them to operate effectively in social, educational, organizational, and healthcare contexts.

#### Degree Type

Bachelor's Degree

#### Duration

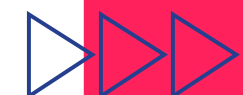

3 Years

## Why Choose UNINETTUNO?

The **International Telematic University UNINETTUNO** is one of Europe's leading digital universities, internationally recognized for the quality of its academic model and innovative approach to higher education.

**UNINETTUNO** is the only Italian telematic university to have received the highest evaluation from the National Agency for the Evaluation of Universities and Research Institutes (ANVUR), confirming its academic excellence and international credibility.

Through its advanced online learning platform, **UNINETTUNO** offers students from all over the world the opportunity to access high-quality education with maximum flexibility, while studying with distinguished Italian and international professors.

The university combines technological innovation, academic rigor, and an international vision, creating a modern educational environment designed to prepare students for the global job market.

## Flexible Learning, International Standards

Studying at **UNINETTUNO** means having access to a university experience that combines flexibility, innovation, and internationally recognized academic quality.

Students can study entirely online while managing work, personal commitments, or international mobility. The digital learning environment includes:

- Video lectures available 24/7
- International academic approach
- Interactive learning materials
- Dedicated tutoring and academic support
- Live interactive classrooms
- Discussion forums and collaborative activities
- Socrates AI, UNINETTUNO's artificial intelligence tool designed to support learning, enhance study efficiency, and provide students with an innovative and personalized educational experience

**UNINETTUNO's psycho-pedagogical model**, developed through over 25 years of international research conducted by **Rector Prof. Maria Amata Garito** and her research team, encourages active participation and independent critical thinking, helping students develop practical, analytical, and problem-solving skills highly valued in today's professional world. The model places the student at the center of the learning process, transforming education from passive knowledge transmission into an active, collaborative, and interactive experience.

## What Does 180 ECTS Mean?

The students will be awarded a 180- ECTS Degree (European Credit Transfer and Accumulation System), the official academic standard adopted across Europe and internationally recognized by universities and employers worldwide.

ECTS credits certify the academic workload, competencies, and learning outcomes achieved during the degree program.

Completing 180 ECTS means that students obtain a fully recognized Bachelor's Degree aligned with the European Higher Education Area standards, facilitating:

- Global academic recognition
- Access to Master's Degree programs worldwide
- Mobility opportunities
- International career perspectives
- Recognition of qualifications across European countries and beyond

This makes the degree particularly valuable for students seeking an international academic and professional pathway in psychology, social sciences, and human development sectors.

## Course Objectives

The program aims to provide students with a solid foundation in psychological sciences while integrating knowledge from cognitive neuroscience, educational sciences, and the humanities.

Its primary objective is to develop a strong scientific and methodological background in psychology, cognitive neuroscience, and psychosocial disciplines, while equipping students with the analytical, research, and communication skills needed to understand human behavior, mental processes, and social interactions.

Throughout the program, students acquire the competencies required to operate effectively in educational, social, organizational, and healthcare settings, preparing them for both professional practice and further academic studies.

## What You Will Learn

### First Year

Students build foundational knowledge in psychology, human behavior, biology, and communication sciences while developing essential analytical and methodological competencies.

Main subjects include:

- Origins and History of Psychology
- Cognitive Psychology
- Language and Communication
- Biology and Physiology of the Neuron
- Elements of Computer Science

### Second Year

The second year focuses on psychological theories, social dynamics, and research methodologies, helping students develop analytical and interpretative skills.

Main subjects include:

- Developmental Psychology
- Theories and Methods of Social Psychology
- Psychometrics and Data Analysis
- Psychobiology of Human Behavior
- Community Psychology

### Third Year

During the final year, students deepen their professional and applied competencies through psychosocial evaluation methods and organizational psychology.

Main subjects include:

- Work Psychology
- Theories and Tools for Psychosocial Evaluation
- Advanced psychosocial methodologies
- Applied research and analytical competencies

The program combines scientific knowledge with practical applications, preparing students to understand and address complex psychosocial dynamics in contemporary society.

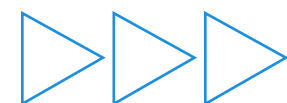

# Who Is This Program For?

This Bachelor's Degree is ideal for:

- Students interested in psychology, human behavior, and social sciences
- Individuals seeking an internationally recognized degree
- Working professionals looking for flexible study opportunities
- Students interested in social and educational contexts
- Learners aiming to work in psychosocial and human development sectors
- Students planning to continue with postgraduate studies in psychology or related disciplines

The online structure allows students to combine academic studies with personal and professional commitments while studying from anywhere in the world.

# Career Opportunities

Graduates of the Psychosocial Disciplines program can pursue professional opportunities in areas such as:

- Psychosocial consulting
- Psychometric evaluation
- Human resource management
- Training and guidance
- Welfare and healthcare promotion

The degree prepares graduates to work in multidisciplinary environments where communication, analytical thinking, and understanding human behavior are essential competencies.

## Admission Requirements

- High School Certificate and/or transcript
- Passport or National ID Card
- Curriculum Vitae
- Proof of at least 12 years of schooling
- Proof of English proficiency at B2 level  
(recommended)

All documents must be submitted in English or Italian. Documents in other languages must include a certified translation with apostille.
